## EDUCATION

**Bio Kenetics Leaning School**  
**Elementary**  
2009 - 2015

**Colegio De Calumpit Institute**  
**High School**  
2015-2020

**Colegio De Calumpit Institute**  
**Senior High School**  
2021-2022

**Centro Escolar University**  
**1st yr College**  
2022-2023

**University of the East**  
**College**  
2023-Present

## WORK SKILLS

- Embedded Systems Development
- Software Development
- Digital Design
- HTML & CSS
- C++ Programming
- Bootstrap Framework

## PORTFOLIO

- **Car Parking Management System**  
A project that involves parking management using ultrasonic sensors, IR sensors, servo motors, and LEDs for slot indication. The system is coded in C++ and handles parking slot detection and gate control logic.
- **Bionote Webpage**  
A personal bionote webpage where I showcase my skills and experiences. The webpage is designed using HTML, CSS, and Bootstrap.
- **Smart Home Automation**  
An embedded systems project that automates home appliances using a microcontroller and sensors, coded in C++ and integrated with a mobile application.
